Caniad Big Chats

"I like the Big Chats because you meet someone new and learn about a new service every time"

The **Caniad** Big Chats are an open drop in group for all service providers, service users, carers or someone who is just curious about SMS and MH services.

Feel free to attend any Caniad Big Chat, everyone is welcome! We have recently had updates around services providing LGBTQ+ support such as Unique, information on the progress of 111 press 2, and a new project 'Reach and Connect' in Wrexham.

We also discuss topics that have come from the Area Planning Board and Betsi Cadwaladr University Health Board and collect feedback on these topics to report back. A recent example is the feedback we collected on Crisis Care e.g., first point of contact, cost, out of hours support etc., we also discussed 'crime in communities' and how the Serious Violence Duty are looking into prevention of crime!

The Big Chats are a great opportunity to share updates/promote your service as well as for service users and carers to find out more about SMS and MH support in their area and having the opportunity to share their experience and have their voice heard!

Involvement and Training Opportunities at Caniad

Caniad Involvement

Have your say in the improvement of Mental Health and Substance Misuse services in North Wales!

Feedback and recommendations via Big Chats, phone calls and emails.

Share your story to showcase the real life side of Mental Health and Substance Misuse.

Attend pathway meetings with the health board and APB to represent Caniad and being the voice of service users and carers.

Interviewing new staff members in MH and SMS services, known as Value Based Interviews (VBI'S)

Attend events and shows promoting Caniad and being the voice of many.

Attend focus groups e.g., Sanctuary user groups, Serious Violence Duty user groups.

Pathway Meetings

Pathway meetings are attended by members of the health board, third sector organisations and patient and carer representatives e.g., Caniad involvers! All Caniad involvers will get training and support if interested in attending the meetings as the voice of patients and carers accessing the service related to that meeting.

Involvement and Training Opportunities at Caniad

Caniad Training

Caniad offers training to our Caniad involvers for the following:

Committee Skills Training - includes information on agendas, meeting minutes, the role of a chair in a meeting and the rules that coincide within meetings. This training opens up opportunity for service users and carers to carry the voice of those that have accessed SMS and MH services in pathway meetings.

VBI Training - this is for Caniad involvers to gain experience and an understanding in interviews. Our Value Based Interviews are requested by service providers for Caniad involvers to carry out an interview based on the ethos and values of the candidate. Your scoring is then taken into account when hiring the candidate as it is important to have the right person in post.

Digital Skills workshop - Caniad will be hosting digital skills training, open to all clients from third sector MH and SMS organisations to uphold digital access and digital inclusion. We want to know what would benefit your learning e.g., how to do emails, join online meetings, accessing online banking etc.

Caniad Involver Workforce Development - Caniad will be offering more advance training to involvers hosted by Workforce Development, this training will consist of Professional Boundaries, Equality and Diversity, Conducting Professional Meetings, Suicide Awareness and Train the Trainer among others.

Co-Production in Caniad

Caniad are working alongside the health board and APB to develop service improvements for Crisis Intervention, supporting on the delivery of the current and future Substance Misuse Strategy and looking at what is needed for the next Together for Mental Health Strategy. We are doing this by identifying what works well, finding the gaps and taking recommendations to enhance patient experience of Substance Misuse and Mental Health Services! We do this by working with people with lived experience or someone who has accessed MH and SMS services, to get their experience, opinions, feedback, and suggestions. This feedback is then taken to the health board and the services, where they can utilize the information in the best way possible.

You Said, We Did

Caniad Advertising - Caniad have now developed a website, where service users, carers and service providers had the opportunity to share their thoughts and recommendations. As of 15th September the website is live: caniad.org.uk (copy and paste this link to see it!).

Transport to Services - This is a continued piece of feedback Caniad have been working on with the APB. The Arriva bus tickets had been ordered by services to share with their clients to better access appointments, groups etc., with positive feedback from the use of them we are hoping to be able to provide this again.

Caniad in rural areas - Caniad have set up weekly drop in's across Flintshire to trial the accessibility to Caniad through these. If we gain positive feedback, Caniad will work on providing more drop in's across North Wales.
